REASONS FOR ALLOWANCE

1. This action is in response to the amendment filed January 9, 2003.
2. Claims 9-44, 49-53, 67-73 are allowable.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
4. Authorization for this examiner's amendment was given in a telephone interview with Mark Wilson on January 28, 2003.
5. The application has been amended as follows:
 - A) Claim 49-53 have been amended to delete "nucleotide" in the preamble and replace therefore - - polynucleotide- - as previously claimed. It is noted that the marked up version and the pending claims do not match the previous amendments directed to these claims.
 - B) Claims 47-48, 54-66 have been cancelled without prejudice or disclaimer.
6. The following is an examiner's statement of reasons for allowance.

The claims are drawn to an isolated nucleotide sequence which encodes a polypeptide comprising SEQ ID NO: 2.

The prior art does not teach a nucleotide sequence which encodes the polypeptide of SEQ ID NO: 2. While several papers have discussed large chromosomal regions, the prior art does not teach a nucleic acid sequence encoding the amino acid sequence of SEQ ID NO: 2. The dependant claims require a specific 21, 30, 40 nucleotides from 122-970 of SEQ ID NO: 1. These isolated nucleotides, because they depend from Claim 39, still encode SEQ ID NO: 2.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
